PRIVACY AND IDENTITY MANAGEMENT FOR EUROPE

Identity Management and the focus of PRIME

All social and economic interactions between human beings in modern civilisation require the exchange of some personal data. The decision on what data to make available is made intuitively in normal life, for instance, the one of whether or not to state your name when shaking hands. In the on-line world, every person has to handle numerous accounts and data sets. These so-called "partial identities" will increasingly play a key role in future electronic services as well as in public security (e.g., border controls). They may very well convey sensitive personal data, such as patient health data, employee data, credit card data, etc.

Surveys have shown that people now feel their privacy is at risk from identity theft and the erosion of individual rights. In the Information Society people want to interact securely and safely while maintaining control over their personal data.

PRIME focuses on solutions for privacy-enhancing identity management that supports end-users' sovereignty over their private sphere while facilitating enterprises' privacy-compliant data processing.

The goal of PRIME and its prototype

Besides its research on identity one priority of the PRIME project was to develop a prototype for an user centric Identity Management and several application prototypes. All prototypes and the results of PRIME research on basic models for the architecture of identity management and for supporting cryptographic methods will be presented to an interested audience at the project's Closing Event on 21 July 2008.

Co-located events

The PRIME Closing Event is held in co-location with the 8th Privacy Enhancing Technologies Symposium (PETS 2008), the Workshop on Trustworthy Elections (WOTE 2008) and workshops from the projects Advanced Applications for Electronic Identity Cards in Flanders (adapID) and Future of Identity in the Information Society (FIDIS) during the week 21 - 25 July 2008:

	Мо	Tue		Wed		Thu	Fri
morning	PRIME	adapID	WOTE	PETS '08	WOTE	PETS '08	PETS '08
afternoon	PRIME	FIDIS	WOTE	PETS '08	WOTE	PETS '08	PETS '08

* Identity of Jane

Partial Identity of "Jane"

Identity of "Jane"

Participate in the future of Privacy-Enhancing Identity Management!

Agenda, 21 July 2008

Registration

standardisation

2.00	negistration			
9:30	Keynotes			
	Keynotes will be held by renowned privacy			
	protection experts			

PRIME architecture

Social and legal landscape

Requirements, tutorials, policies

14:00 **Prototypes**

10:30

Research on Human-Computer Interaction, display of integrated prototype and application prototypes: idemix, BluES'n – Collaborative eLearning, Location Based Services, OnionCoffee, Online Prescription in eHealth

16:30 **PRIME impact**

Presentation of PRIME research results and how they influenced follow-up projects and spin-offs

17:45 **Panel discussion** "Prime and beyond" Panel on PRIME's impact and the future development of identity management

18:45 Reception

^{*} Agenda is subject to change.
